AN UNDERTONE OF DEPRESSION

Not Amounting to Positive Weakness in Stock Exchange.

THE STRONG BANK STATEMENT

Did Not Create a Favorable Impression, and the Tendency of Stock Prices Was Downward. Local Markets,

NEW YORK, April 28.—Wall Street was inclined to read the signs of the day as meaning "a little setback in our prosperity." The market had an undertone of depressive, which did not reach to positive weakness. A walting attitude would be the proper description. The reports from the commercial agents for the week, which make their appearance on Saturday morning, caused a feeling that industrial and trade activity and prosperity were not being fully maintained. There are suggestions in various fields that ruling prices are serving to diminish consumption to an extent that may necessitate curtailment of production.

The report for March of the Lehigh Valley furnished the exhibit of unfavorable results in the anthracite field.

The bank statement, while a strong one according to the ordinary rules, created an unfavorable impression. Preliminary reports of a large inflow of currency from the interior were fully confirmed by the patement. This movement, in view of the see of money at this centre, gives force to the suggestion that there is a failing off in trade activity.

This view, at all events, was the keynote of the dropping tendency of prices. The steel industrials were special sufferers on reports of intended competition by the Carnegie Company in the field of the Steel and Wire Company's products and the shutting down "for repairs" of a plant of the National Steel Company.

The week's increase of ioans is undoubtedly largely due to borrowing on sterling collateral. Owing to the cheapness of money here and the relative dearness abroad, this operation is more profitable than drawing the exchange. This operation as well as the export of gold, represents the lending of money to foreign borrowers, as the country's foreign trade continues to accumulate credits in our favor.

Reports of bank clearings do not warrant the assumption that the return flow

continues to accumulate credits in our favor.

Reports of bank clearings do not warrant the assumption that the return flow of currency is due to diminished trade activity. New York and Boston are the only important centres in the country to show a decrease in clearings for the week compared with last year. The five other leading reserve cities, as well as the total for all other large cities shows increases running from 9 to 18 per cent. The explanation must be the extension of the bank-note currency and the disbursement of cash by the United State Treasury overrun the needs of circulation and is forcing funds back into the dile reserves of banks. Further exports of gold from this cause, unless its operation is checked or contracted, is considered certain.

ered certain.

Activity in bonds has been mostly confined to special cases. United States refunding 2's, the 3's, old 4's and 5's declined \(\frac{1}{2} \) and the new 4's advanced \(\frac{1}{2} \) in the bid price.

The total sales of stocks to-day were 214 900 shares.

COTTON MARKETS.

NEW YORK, April 28.—COTTON—The cotton market opened steady, 1 to 4 points higher, and immediately developed pronounced strength on a bad scare of local and outside shorts, which originated in reports from private sources that excessive rains in Central Texas were causing floods and great damage to the cotton lands. Bullish English cables and foreign buying orders, together with light receipts, added to the firm undertone of the market. Wall Street was a conspicuous buyer of July and August on the buige. Inasmuch as wire houses came into possession of a few buying orders on a further rise, bears quietly sold at prices above 9.50, taking the stand that Texas rains, on the whole, would do more good than harm, and that the advance of yesterday and this morning had not greatly cutdo wn the port receipts, but had piled up the wieldly long interest. The late market became quite feverish, and trading then became spasmodic, though more active than in weeks. Closed steady at 8 to 10 points higher: COTTON MARKETS.

The Knights of the Golden Horseshoe,
that valiant and cally-costumed body of that valiant and guily-costumed body of our best bone and sinew, will officiate at all times and escort the King on all his journeys and at all functions.

ELECTION OF KING. It is the desire of the Carnival Asso-ciation and the Knights of the Golden Horseshoe, who have direct supervision of the matter, that the King of the Carnival shall not be chosen in any frivolous way, but that the title shall be conferred way, but that the title shift be control upon one of the prominent business men of the city, whose enterprise and push has built up Ricimmond and increased its importance as a business center.

In other cities the election has always

fallen upon some one of these promoters and has ever been considered a high honor and one to be sought after There are many such men in Richmond and their names are among the nominees of the Knight. These men have done much to build up the city, and it is but just that this honor should go to one of them.

On account of certain small expense account, which will of necessity accompany this feature, the voters have been charg-ed 10 cents per vote.

As the Carnival man made his rounds

As the Carrival man made his rounds yesterday to the precincts heretofore name, to place ballot boxes and give out tickets, he found votes left at them to be put in at once. At one place \$1,80 had already been deposited. This is indicative of the great interest being taken in the election of King by the masses, who, not being able to contribute to the Carrival being able to contribute to the Carnival fund in any large sum, are employing this means of showing their public spirit. Other names besides those already nom-inated can be brought out by anyone who will send the name to the Nominating Committee of the Knights of the Golden Horsesboe at headquarters.

The Music Committee has found a clue which they think will lead to the locating of "Fortuna," the composer of the prize Carnival march. Colonel C. O'B. Cowardia, chairman, while looking over some papers, chanced upon an envelope with a

of the royal court while that section is in some way became misplaced. He has communicated with the person whose name was discovered and is quite certain that the result of the letter will be satisfactory.

TO BUILD ANOTHER ARCH

The Carnival Association Wants to Have One Built on West Broad, There is a movement on foot to erect another arch on West Broad Street for the Carnival. Mr. A. H. Meyer has contributed \$25, while Mr. H. Claiborne Epp≰ as added \$5 more. The Richmond Carnival Association is

making a very earnest effort to have an arch built, and those who desire to contrioute towards the building of the arch

Frustrated Bold Attempt to Rob a Bank in Lynn, Mass.

LYNN, MASS., April 28 .- A bold attempt was made to rob the Lynn Five-Cent Savings Bank shortly after noon to-day. During the lunch hour a man approached the teller's window and passed a note to Harriet P. Houghton, who was on duty. The note read:
"Don't speak or make any noise or I'll

put a bullet through your brain. Count out \$500 and be quick, pass it to me without trouble. I have two friends waiting and any attempt to communicate with any one will mean your death."

Miss Houghton, although much alarmed, which present the state of t
